

IQ'S

It doesn't take Einstein to figure out that music and art go hand in hand. But throw in some happy hour specials, and you have yourself a good time and a cultural experience all rolled into one. IQ's opened almost a decade ago, splitting that time between their original location on Broadway and their current location on University Avenue. Not only can you see local artists like currently-featured Heather Peterman putting her work on display, but they also host a weekly open mic night as well as other live music features throughout the week. "That was all part of the original plan, to be unique and original," says Bill Hickey, co-owner with his wife Sandy. And while it may seem unassuming from the outside, unique and original is exactly what the experience for patrons will be. Sounds like a genius idea to us indeed!
